An Ulsterman considers his passport

John Hewitt: The Frontier

At the frontier the long train slows to a stop
Small men in uniform drift down the corridor
Thumb passports, or withdraw for consultation
The customs officers chalk the bags and leave us to shut them.

We pass here into another allegiance
Expect new postage stamps, new prices, manifestoes
And brace ourselves for the change. But the landscape does
Not alter
We had already entered these mountains an hour ago.
‘Our Irish passports have just arrived’
